

# Domains for action .....

- Medicine Benefits Design for Cost and Quality
- Public-Private Partnerships
- Information for Decision Making
- Governance
- Advocacy and Civil Society
- The Politics of Medicine and UHC

# Your task:

1. Join a 'domain' group
2. Identify the **3 to 4 priorities** for moving forward in that domain
3. Share these in plenary
4. Take the priorities home and start acting on them

Medicines as Part of Universal Health Coverage:  
Starting a Dialogue

June 2-4, 2013, Washington, DC

With additional support by US Agency  
for International Development and the  
Pan American Health Organization

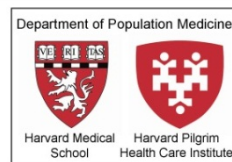

# Next Steps

- Prepare and disseminate proceedings of the meeting
- Develop a publication focusing on the importance of medicine coverage for UHC, capturing the key issues discussed during this meeting, including a summary of guiding principles and recommendations for how to move forward
- With input from fellow organizers and other UHC stakeholders, explore the creation of a forum for continuing dialogue on medicines coverage and UHC
- Create a repository of information on medicines and UHC that everyone (donors, NGOs, countries, etc.) can access
